Abstract of DE19810888

In aqueous pearlescent concentrates, the non-aqueous fraction comprises (a) 1-99 wt.% fatty acid polyglycol ester sulfates (I), (b) 0-90 wt.% anionic, non-ionic, cationic, ampholytic and/or zwitterionic emulsifier(s), (c) 1-50 wt.% pearlescent waxes and (d) 0-40 wt.% polyols. Independent claims are also included for the production of (a) the concentrates and (b) opacified and pearlescent liquid aqueous formulations of water-soluble surfactants.
